

About S-CAPE and caresyntax®

caresyntax® enables OR teams to predict and improve surgical performance.

The caresyntax® platform converges IoT technology and healthcare data analytics to achieve key global and procedural insights. Hospitals can benchmark outcomes and improve surgical workflows, paving the way to decreased variability of cost and clinical performance. Automated real-time reporting drives training and quality improvement, allowing the hospital to save money and mitigate risk - all without the time and investment required when using big data analytics.

Our technologies have raised the performance bar in more than 6,000 operating rooms worldwide, and are supporting the next generation of data-enabled OR teams in over 10 million procedures per year. Headquartered in Berlin and Boston, with over 90 employees from 20 different nationalities, we seek highly-motivated and passionate individuals to join us.

Service Technician with a hardware focus (f/m)

Your Responsibilities:

- Installation, configuration, and maintenance of AV and IT systems in a hospital environment
- Conduct field service at customer premises (40-60% traveling time mostly in Europe)
- Provide technical issues resolution and assistance to customer and service partners
- Coordinate partner training in regards to systems installation and service
- Troubleshooting, debugging, repair, and documentation
- Support in systems production and final testing

Your Qualifications:

- Technician for Electrical and ITC installation, Radio-Telecommunication, Medical Technology, building construction or automation and control.
- At least 2-3 years experience in AV, Media, Communication technology (e.g. Conference systems). Practical experience with on-site installations
- Understanding of construction project planning, implementation, and commissioning
- Experience in hospital or clinical infrastructures is a plus
- Proficiency in German. Fluency in English both spoken and written (min B2)
- Friendly and efficient communicator externally and internally

Why work for us? - We offer

- an international and innovative environment
- a warm-hearted, flexible, and solution-oriented culture
- room to introduce and implement creative ideas and develop your talents
- professional and intellectual exchange with highly-talented and ambitious colleagues from all over the world
- self-organisation and agile methods encouraged
- work visa sponsorship and relocation assistance provided, where applicable

If this job description and culture seem like a good fit to you, then we would be glad to receive your compelling application. Please send by email along with your Resume/CV, Cover Letter, salary expectations, and your earliest possible starting date to:
